

Jak si vede vaše farma?

The diagram illustrates the integration of various data sources into a central system. A hand holds a tablet displaying a radar chart. Six arrows point from surrounding icons to the tablet: a stopwatch (top left), a color bar (middle left), a bus (top right), a pile of leaves (middle right), a bottle with a clock (bottom right), and a hand with test tubes (bottom left). Each icon represents a different type of data or measurement being collected and analyzed.
